GRADE CONVERSION SYSTEM USED FOR SENIOR SCHOOL CERTIFICATES

Unless the certificate specifies the level of difficulty of the subject to be passed, the basic level is assumed as confirmed by the grade in the certificate. If the grade conversion factor for the points listed below does not take into account the country from which the candidate holds a certificate or in the case of a different grade scale, the International Mobility Office, in consultation with the Vice-Rector for Student Affairs, individually converts the candidate's certificate results into points used in the recruitment process.
